PART IV

List of Contracts Awarded by the Civil Aviation Division, Department of Transport, from August 1 to August 31, 1941 439

PREFACE

The *Record of Contracts Awarded*, a monthly report published by authority of the Hon. C. D. Howe, Minister of Munitions and Supply, contains statistical tabulations and data pertaining to contracts placed by the Department of Munitions and Supply and its associated and predecessor purchasing bodies.

The report for the current month, August, 1941, consists of four parts: Part I, a summary of the contracts awarded from July 14, 1939 up to August 31, 1941, comprises (a) a résumé covering primarily the purchasing pace for the month under review, (b) a general summary of the total dollar value of contracts on Canadian, United Kingdom and other account, and (c) a monthly summary of the total value of the contracts on Canadian account; Part II, a list of the contracts let in August, 1941 on Canadian account, includes only the individual orders having a value of $100 and over; Part III, a list of amendments, itemizes the newly reported contracts and the revisions to contracts previously published in these volumes; Part IV, a list of the contracts awarded in the current month by the Civil Aviation Division of the Department of Transport, comprises the contracts for airport construction under the British Commonwealth Air Training Plan.

This and previous numbers of the *Record of Contracts Awarded* give no particulars of individual contracts on United Kingdom account placed by the Department of Munitions and Supply for or on behalf of the British Purchasing Commission and the British Supply Board. However, the total estimated dollar value of these contracts and commitments is shown in the general summary.

Certain contracts and orders on Canadian account may have been omitted from Parts II and III. If so, they will be reported in subsequent lists of amendments. It is emphasized, however, that the various lists contain only the contracts that have been awarded; they do not include contracts under negotiation, commitments based on "going ahead" letters or other orders that have not been finalized.

These monthly publications are records of contracts placed—not of payments made. In some instances, the dollar values of the orders are estimates. This applies particularly to the production contracts let on a "cost-plus basis" and to orders for commodities which are for delivery as and when required, such as commissary supplies, fuel, gasoline and forage.

The cost of supplies ordered on Canadian account from the Admiralty, the War Office and the Air Ministry, London, England are also, for the most part, approximations. The *Records* have not included goods supplied gratis to the Dominion by these Departments of the British Government for use under the Commonwealth Air Training Plan.

The lists of contracts and of amendments in the various *Records* are arranged chronologically. The column headed "Date of Order" carries the date of the contractual agreement, whether it be an Acceptance of Tender, a formal contract or a requisition to the Government of the United Kingdom.

The contracts involving expenditures exceeding $5,000 require the authority of the Governor in Council. The respective numbers of the Orders in Council authorizing such contracts are inserted in a separate column.

35300—1½

The purchases made by the Local Purchasing Offices have been indicated by including with the file number the initial letter or letters of the city in which the local office is located. A sub-office of a local purchasing unit is denoted by adding the letter "S" to the symbol designating its main office. The following Local Purchasing Offices and their sub-offices are thus identified:

Halifax, N.S.	L.H.
Moncton, N.B. (Halifax sub-office)	L.Mc.
Saint John, N.B.	L.SJ.
Quebec, Que.	L.Q.
Dominion Arsenals, Quebec, Que.	L.Q.D.
Montreal, Que.	L.M.
Montreal sub-office	L.M.S.
Toronto, Ont.	L.T.
Toronto sub-office	L.T.S.
Winnipeg, Man.	L.W.
Winnipeg sub-office	L.W.S.
Regina, Sask.	L.R.
Calgary, Alta.	L.C.
Calgary sub-office	L.C.S.
Vancouver, B.C.	L.V.
Victoria, B.C.	L.Vi.

The *Record of Contracts Awarded* is prepared in the Statistics Division of the Department of Munitions and Supply under the direction of H. G. Caldwell, B.A., B.Com., A.M., Chief Statistician, assisted by K. A. Cameron, B.A. The material is collated in the Editorial Section under the supervision of D. R. Welwood. Acknowledgment is also made of the co-operation of the various Purchasing Branches and Divisions.

PART I

SUMMARY OF CONTRACTS AWARDED

ON

CANADIAN, UNITED KINGDOM AND OTHER ACCOUNT

FROM

JULY 14, 1939 TO AUGUST 31, 1941

RÉSUMÉ

CONTRACTS AWARDED

JULY 14, 1939 TO AUGUST 31, 1941

The estimated dollar value of contracts and orders placed on Canadian, United Kingdom and other account from July 14, 1939 to August 31, 1941 amounted to $2,414,469,366, a preliminary figure which exceeded the corresponding total reported up to July 31, 1941 by nearly $210,000,000.

On United Kingdom account, the estimated value of contracts placed and commitments made by this Department and by the British Purchasing Commission and its predecessor body, the British Supply Board, up to August 31, 1941 was $932,081,000, or $47,968,000 more than reported up to July 31, 1941.

The value of contracts awarded on Canadian account from July 14, 1939 to August 31, 1941 totalled $1,444,588,580, including orders and commitments of the Civil Aviation Division, Department of Transport, for $23,359,356—the latter were for airport construction, etc. under the British Commonwealth Air Training Plan.

The contracts let on Canadian account from July 14, 1939 to August 31, 1941, excluding the above orders of the Civil Aviation Division, amounted to $1,421,229,224. In relation to the population of Canada, this amount represents approximately $123 per capita. The preliminary total for the month of August was $44,591,250.

The number of contracts comprising the above preliminary August total was 14,397, making the grand total on Canadian account 166,570. The average value of contracts awarded up to August 31, 1941 was over $8,530; the average, however, has been decreasing in 1941, owing partly to the large number of small orders placed by the Local Purchasing Offices.

The average number of contracts awarded during the three months ended August 31, 1941 exceeded 14,700 per month, compared with 7,905 per month in the first quarter of the year. In the corresponding quarter of 1940, the monthly average was 1,901; in the second quarter of that year it was 4,051, in the third quarter, 8,315 and in the fourth, 8,736. During August, 1941, contracts were awarded at an average rate of 576 per working day as compared with corresponding rates of 591 in the preceding month, 436 in September, the peak month of 1940, and 285 in August, 1940.

GENERAL SUMMARY

TOTAL CONTRACTS AWARDED

JULY 14, 1939 TO AUGUST 31, 1941

Canadian Account

DEFENCE PURCHASING BOARD

July 14 to October 31, 1939, amended figures	$ 43,734,713
